We'll use this information to make a custom page with your picture of choice and your message about why all of your friends and contacts should join this cause. Below are some helpful tips on setting up your campaign:

- Make sure to write down the custom URL you chose so you can email it and link to it in your social media posts! That's how your friends, family, and contacts will learn about your page.
- When everything is the way you want it, **make sure to click the "Submit for Approval" button**. Your page will be routed to the nonprofit for their approval. This step helps us all avoid robots and scammers.
- You'll get an email when your page is approved, and then you can start your fundraising campaign!! Good luck, and thank you for caring!
- **Once approved, you'll be able to return to your campaign to make adjustments by hovering over the gear icon and clicking "Edit"**.
- Remember, you'll be able to see donors to your campaign during the event by clicking "View" then "See Donors to your Campaign". Be sure to reach out and thank them for their support!
